Section 1: Identification

Product identifier
Product Name • Proparacaine Hydrochloride Ophthalmic Solution
Product Code • AB04711; Core No. 047; NDC 24208-0730-06

Relevant identified uses of the substance or mixture and uses advised against
Recommended use • Finished Pharmaceutical Product; Proparacaine hydrochloride ophthalmic solution is indicated for topical anesthesia in ophthalmic practice.
Restrictions on use • Refer to the product insert and/or prescribing information for restrictions on use and contraindications.

Details of the supplier of the safety data sheet
Manufacturer • Bausch & Lomb
1400 North Goodman Street
Rochester, NY 14609
United States
bausch.com

Telephone (General) • 1-800-553-5340

Emergency telephone number
Manufacturer • 1-800-535-5053 - Infotrac

This safety data sheet is written to provide health, safety and environmental information for people handling this formulated product in the workplace. It is not intended to provide information relevant to consumer use of the product.

Section 2: Hazard Identification

UN GHS
According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

Classification of the substance or mixture
UN GHS • Skin Sensitization 1B
Specific Target Organ Toxicity Single Exposure 2

Label elements
UN GHS

WARNING

Hazard statements • May cause an allergic skin reaction
Anesthetic effect on eyes

Precautionary statements
The exact percentage of composition has been withheld as a trade secret.

### Section 3: Composition/Information on Ingredients

#### Substances

- Material does not meet the criteria of a substance according to United Nations Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

#### Mixtures

### Section 4: First-Aid Measures

#### Description of first aid measures

**Inhalation**
- No inhalation exposure expected with this formulation under normal conditions of use. If signs/symptoms develop, get medical attention.

**Skin**
- Flush with fresh water if contact with skin or eyes. If skin irritation occurs: Get medical advice/attention.

**Eye**
- For accidental and non-therapeutic applications, flush eyes with copious amounts of water for at least 15 minutes. Get medical attention. If eye irritation persists: Get medical advice/attention.

**Ingestion**
- No specific treatment is necessary since this material is not likely to be hazardous by ingestion. If large quantities are accidentally ingested (greater than a tablespoon), get medical advice/attention.
medical attention immediately.

**Most important symptoms and effects, both acute and delayed**
- Eye anesthetic.

**Indication of any immediate medical attention and special treatment needed**

**Notes to Physician**
- Additional details are available on the product package insert or the Physicians Desk Reference.

**Other information**
- Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

---

### Section 5: Fire-Fighting Measures

**Extinguishing media**

**Suitable Extinguishing Media**
- SMALL FIRES: Dry chemical, CO2, water spray or regular foam.
- LARGE FIRE: Water spray, fog or regular foam.

**Unsuitable Extinguishing Media**
- No data available

**Special hazards arising from the substance or mixture**

**Unusual Fire and Explosion Hazards**
- None known.

**Hazardous Combustion Products**
- None known.

**Advice for firefighters**
- Structural firefighters’ protective clothing will only provide limited protection. Wear positive pressure self-contained breathing apparatus (SCBA).

---

### Section 6 - Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures**

**Personal Precautions**
- No special controls or personal protection required under conditions of intended use. In the event of bulk spills, wear suitable protective eyewear, clothing, protective boots and protective gloves. Evacuate immediate area. Ensure adequate ventilation. Refer to Section 8.

**Emergency Procedures**
- Keep unauthorized personnel away. Ventilate closed spaces before entering. Stop leak if you can do it without risk.

**Environmental precautions**
- Prevent spilled material from entering storm sewers or drains, waterways, and contact with soil.

**Methods and material for containment and cleaning up**

**Containment/Clean-up Measures**
- Contain spilled product. For small spills, add suitable absorbent material. Scoop up and place in an appropriate liquid-tight container equipped with a tight cover for disposal. For large spills, dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Place spilled material in an appropriate, liquid-tight container equipped with a tight cover for disposal. Dispose of in accordance with Section 13.

---

### Section 7 - Handling and Storage

**Precautions for safe handling**

**Handling**
- No special handling is required. Refer to Section 8. Use only in accordance with product literature.
## Conditions for safe storage, including any incompatibilities

**Storage**
- Keep tightly closed. Store between 2-8°C (36-46°F), to maintain product integrity. Use before expiration date marked on carton and/or container. Protect from light.

**Incompatible Materials or Ignition Sources**
- None specified.

## Section 8 - Exposure Controls/Personal Protection

### Control parameters

**Exposure Limits/Guidelines**
- Refer to the occupational exposure limits / guidelines for the individual product components.

</tbody>
</table>

**Exposure Control Notations**
- ACGIH
  - Hydrochloric Acid 37% (7647-01-0): Carcinogens: (A4 - Not Classifiable as a Human Carcinogen)

**Exposure controls**

**Engineering Measures/Controls**
- Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

**Personal Protective Equipment**

**Respiratory**
- In the event of a bulk spill, and where risk assessment shows that air-purifying respirators are appropriate, a NIOSH (US) or CEN (EU) -certified air-purifying respirator equipped with HEPA cartridges may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits, when adequate oxygen is present and as a backup to engineering controls. Use a positive pressure air-supplied respirator if there is any potential for an uncontrolled release or any other circumstances where air purifying respirators may not provide adequate protection.

**Eye/Face**
- Wear protective eyewear (goggles, face shield, or safety glasses) when handling bulk product before closed in final packaging. In the event of a spill, appropriate eye protection should be worn.

**Hands**
- No special personal protection required under conditions of intended use. In the event of a bulk spill, wear rubber or nitrile gloves. Wear protective gloves.

**Skin/Body**
- No special personal protection required under conditions of intended use. In the event of a bulk spill, wear appropriate protective clothing.

**General Industrial Hygiene Considerations**
- Wash thoroughly after handling.

**Environmental Exposure Controls**
- No data available

Section 10: Stability and Reactivity

Reactivity

- No dangerous reaction known under conditions of normal use.

Chemical stability

- Stable under normal temperatures and pressures.

Possibility of hazardous reactions

- No data available

Conditions to avoid

- Extreme heat or cold. Do not freeze. Protect from light and heat.

Incompatible materials

- No data available

Hazardous decomposition products

- No data available

Section 11 - Toxicological Information

Potential Health Effects

Inhalation

Acute (Immediate) • Under normal conditions of use, no health effects are expected.

Chronic (Delayed) • No data available.

Skin

Acute (Immediate) • Not expected to cause skin irritation.

Chronic (Delayed) • Repeated and prolonged exposure may cause irritation. Allergic contact dermatitis has been reported following use of this product.

Eye

Acute (Immediate) • This product is an ophthalmic anesthetic. Normal treatment dosage is 1-2 drops.

Chronic (Delayed) • Refer to the product insert and/or product prescribing information for comprehensive information regarding adverse reactions and other important symptoms and effects. Under normal conditions of use, no health effects are expected.

Ingestion

Acute (Immediate) • Not expected to be an exposure route. However, may cause gastric and intestinal irritation if ingested.

Chronic (Delayed) • No data available.

Carcinogenic Effects

Section 12 - Ecological Information

Toxicity

• This material has not been tested for environmental effects.

Persistence and degradability

• No data available.

Bioaccumulative potential

• No data available.
Mobility in Soil

- No data available

Other adverse effects

Section 13 - Disposal Considerations

Waste treatment methods

Product waste
- Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator.

Packaging waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
