

Eye Care and Cure is all about innovation and we are very proud to be recognized for our efforts! This year, Eye Care and Cure has been awarded the 2011 AZBio Fast Lane Award. The theme for this year's award was forward motion, and how to move forward faster. We were given the opportunity to share stories of our company and how we continue to move forward in the current challenging times.

Some of the new ventures that Eye Care and Cure has successfully completed this year is ISO 9001 certification and CE mark certification. These certifications assure the international marketplace that Eye Care and Cure has adopted standards of excellence for the company and our products.

We feel that these two certifications are important for Eye Care and Cure moving forward. As always, our goal is to constantly expand and improve, in order to offer our customers the best possible products at the best possible prices with superior customer service!
